Module for Attachments

Visitors

**direct 24 is a highly flexible Time Tracking system offering a simple and effective way to record hours. We have extensive experience in time tracking and have delivered time tracking software since 1991.**

With **direct 24** on mobile, all employees can quickly and easily register their work hours. Man-hours can be registered on projects, salary, clients, departments, tasks or activities. The company gets a continuous overview of employees' hours on various activities if time tracking is used.

The **project portal** helps to effectively manage and monitor projects for optimal earnings. Did you know that instant time registration on projects, rather than post-registration, will significantly increase your invoicing rate? This strategy has been essential for the growth and profitability of several of our clients.

### PERSONNEL STATUS

*A complete overview of your employees' status and availability*

### APP

*Real-time logging of hours against project activity*

### PROJECT PORTAL

*A complete summary of project time consumption and profitability.*
